About Russia

Russia

Russia is the world's largest country, spanning over two continents and covering more than one-eighth of the Earth's landmass. It has a strong educational system, with a literacy rate of 99.7%. It is a complex and fascinating country, with a rich history and culture, a diverse population, and a promising future. For students considering studying abroad, Russia can offer a unique and enriching experience.

Geography

Russia is the world's largest country, covering more than 17 million square kilometers of land, and spanning two continents (Europe and Asia). It is bordered by Norway, Finland, Estonia, Latvia, Lithuania, Poland, Belarus, Ukraine, Georgia, Azerbaijan, Kazakhstan, Mongolia, China, and North Korea.

Demography

Russia is the largest country in the world in terms of land area, with a population of approximately 144 million people. Overall, Russia's demographic challenges are likely to have significant implications for the country's economy, social structure, and geopolitical position in the coming decades.

Language

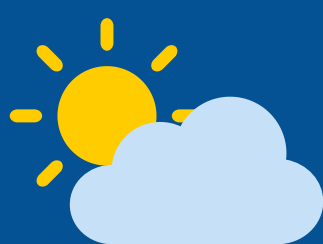

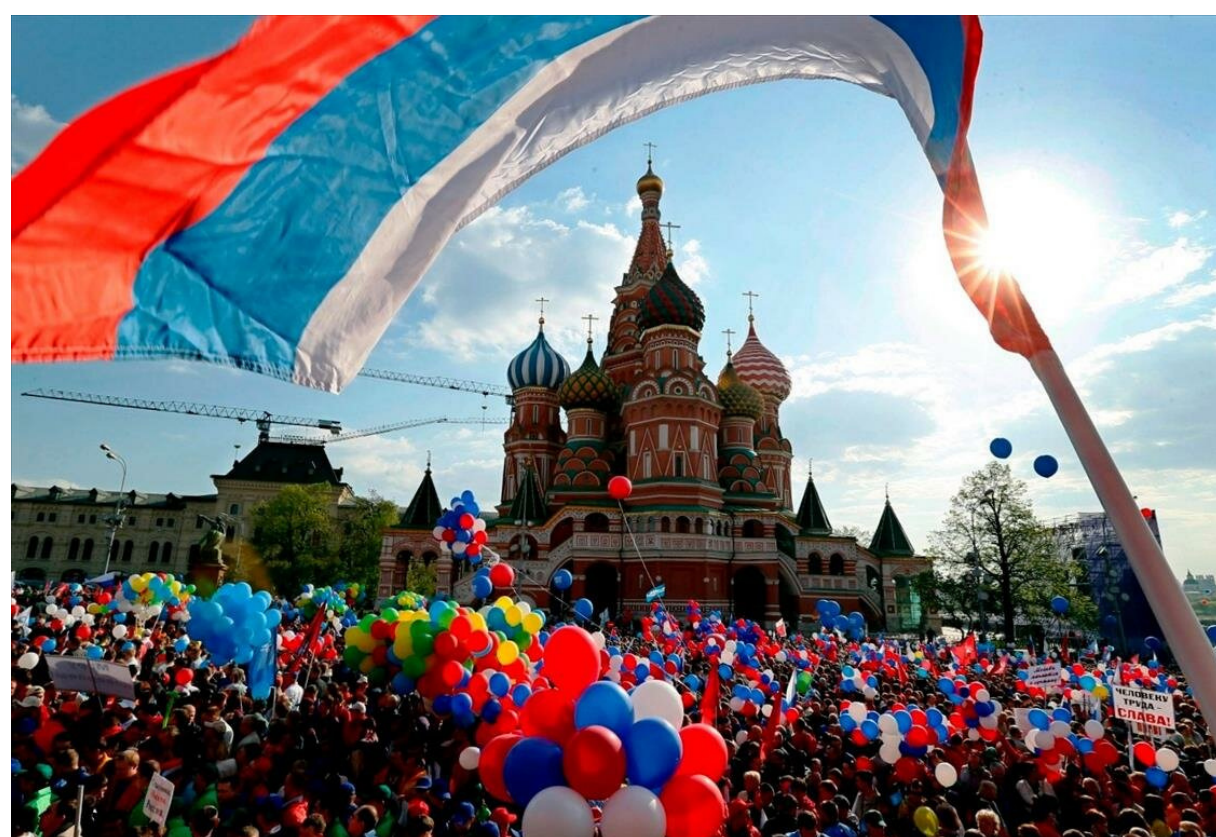

The official language of Russia is Russian. It is the most widely spoken language in the country, and it is also one of the six official languages of the United Nations. Russian belongs to the Slavic language family, and it uses the Cyrillic script.

RUB

1 Russian Ruble

1.07 Indian Rupee

In Summer the temperatures average more than

30°C (86°F)

WHY BASHKIR STATE MEDICAL UNIVERSITY

BASHKIR STATE MEDICAL UNIVERSITY

BSMU is a well-known and highly reputable medical university located in Ufa, the capital city of the Republic of Bashkortostan, Russia. There are several reasons why BSMU is a great choice for students who wish to pursue a career in the field of medicine.

Accreditation and Recognition: BSMU is recognized by leading medical organizations like the World Health Organization (WHO), Medical Council of India (MCI), and the General Medical Council (GMC) of the United Kingdom. The university is also accredited by the Ministry of Education and Science of the Russian Federation.

Quality of Education: BSMU has a long-standing reputation for providing high-quality education in the field of medicine. The university has state-of-the-art infrastructure, modern facilities, and a highly experienced faculty that is dedicated to providing students with the best possible education.

Wide Range of Programs: BSMU offers a wide range of programs in the field of medicine, including undergraduate, graduate, and postgraduate programs. The university also offers courses in dentistry, pharmacy, and nursing.

Practical Training: BSMU emphasizes practical training and hands-on experience for its students. The university has partnerships with leading hospitals and clinics in Russia, which provide students with ample opportunities to gain practical experience and exposure to real life medical scenarios.

International Student Community: BSMU has a diverse and vibrant international student community, with students from over 50 countries. This creates a multicultural and inclusive learning environment that prepares students to work in a globalized world.

RECTOR'S MESSAGE

V.N. Pavlov

BASHKIR STATE MEDICAL UNIVERSITY
UFA, RUSSIA

Dear Applicants,

We are glad to welcome you to Bashkir State Medical University! Our university is the center of medical and pharmaceutical sciences of the Republic of Bashkortostan.

For more than 85 years our institution has been successfully training specialists for health care, scientific and pedagogical work in the sphere of professional medical and pharmaceutical education of the Russian Federation. Scientists of Bashkir State Medical University successfully represent our Republic and Russia at the international events in different fields of natural sciences.

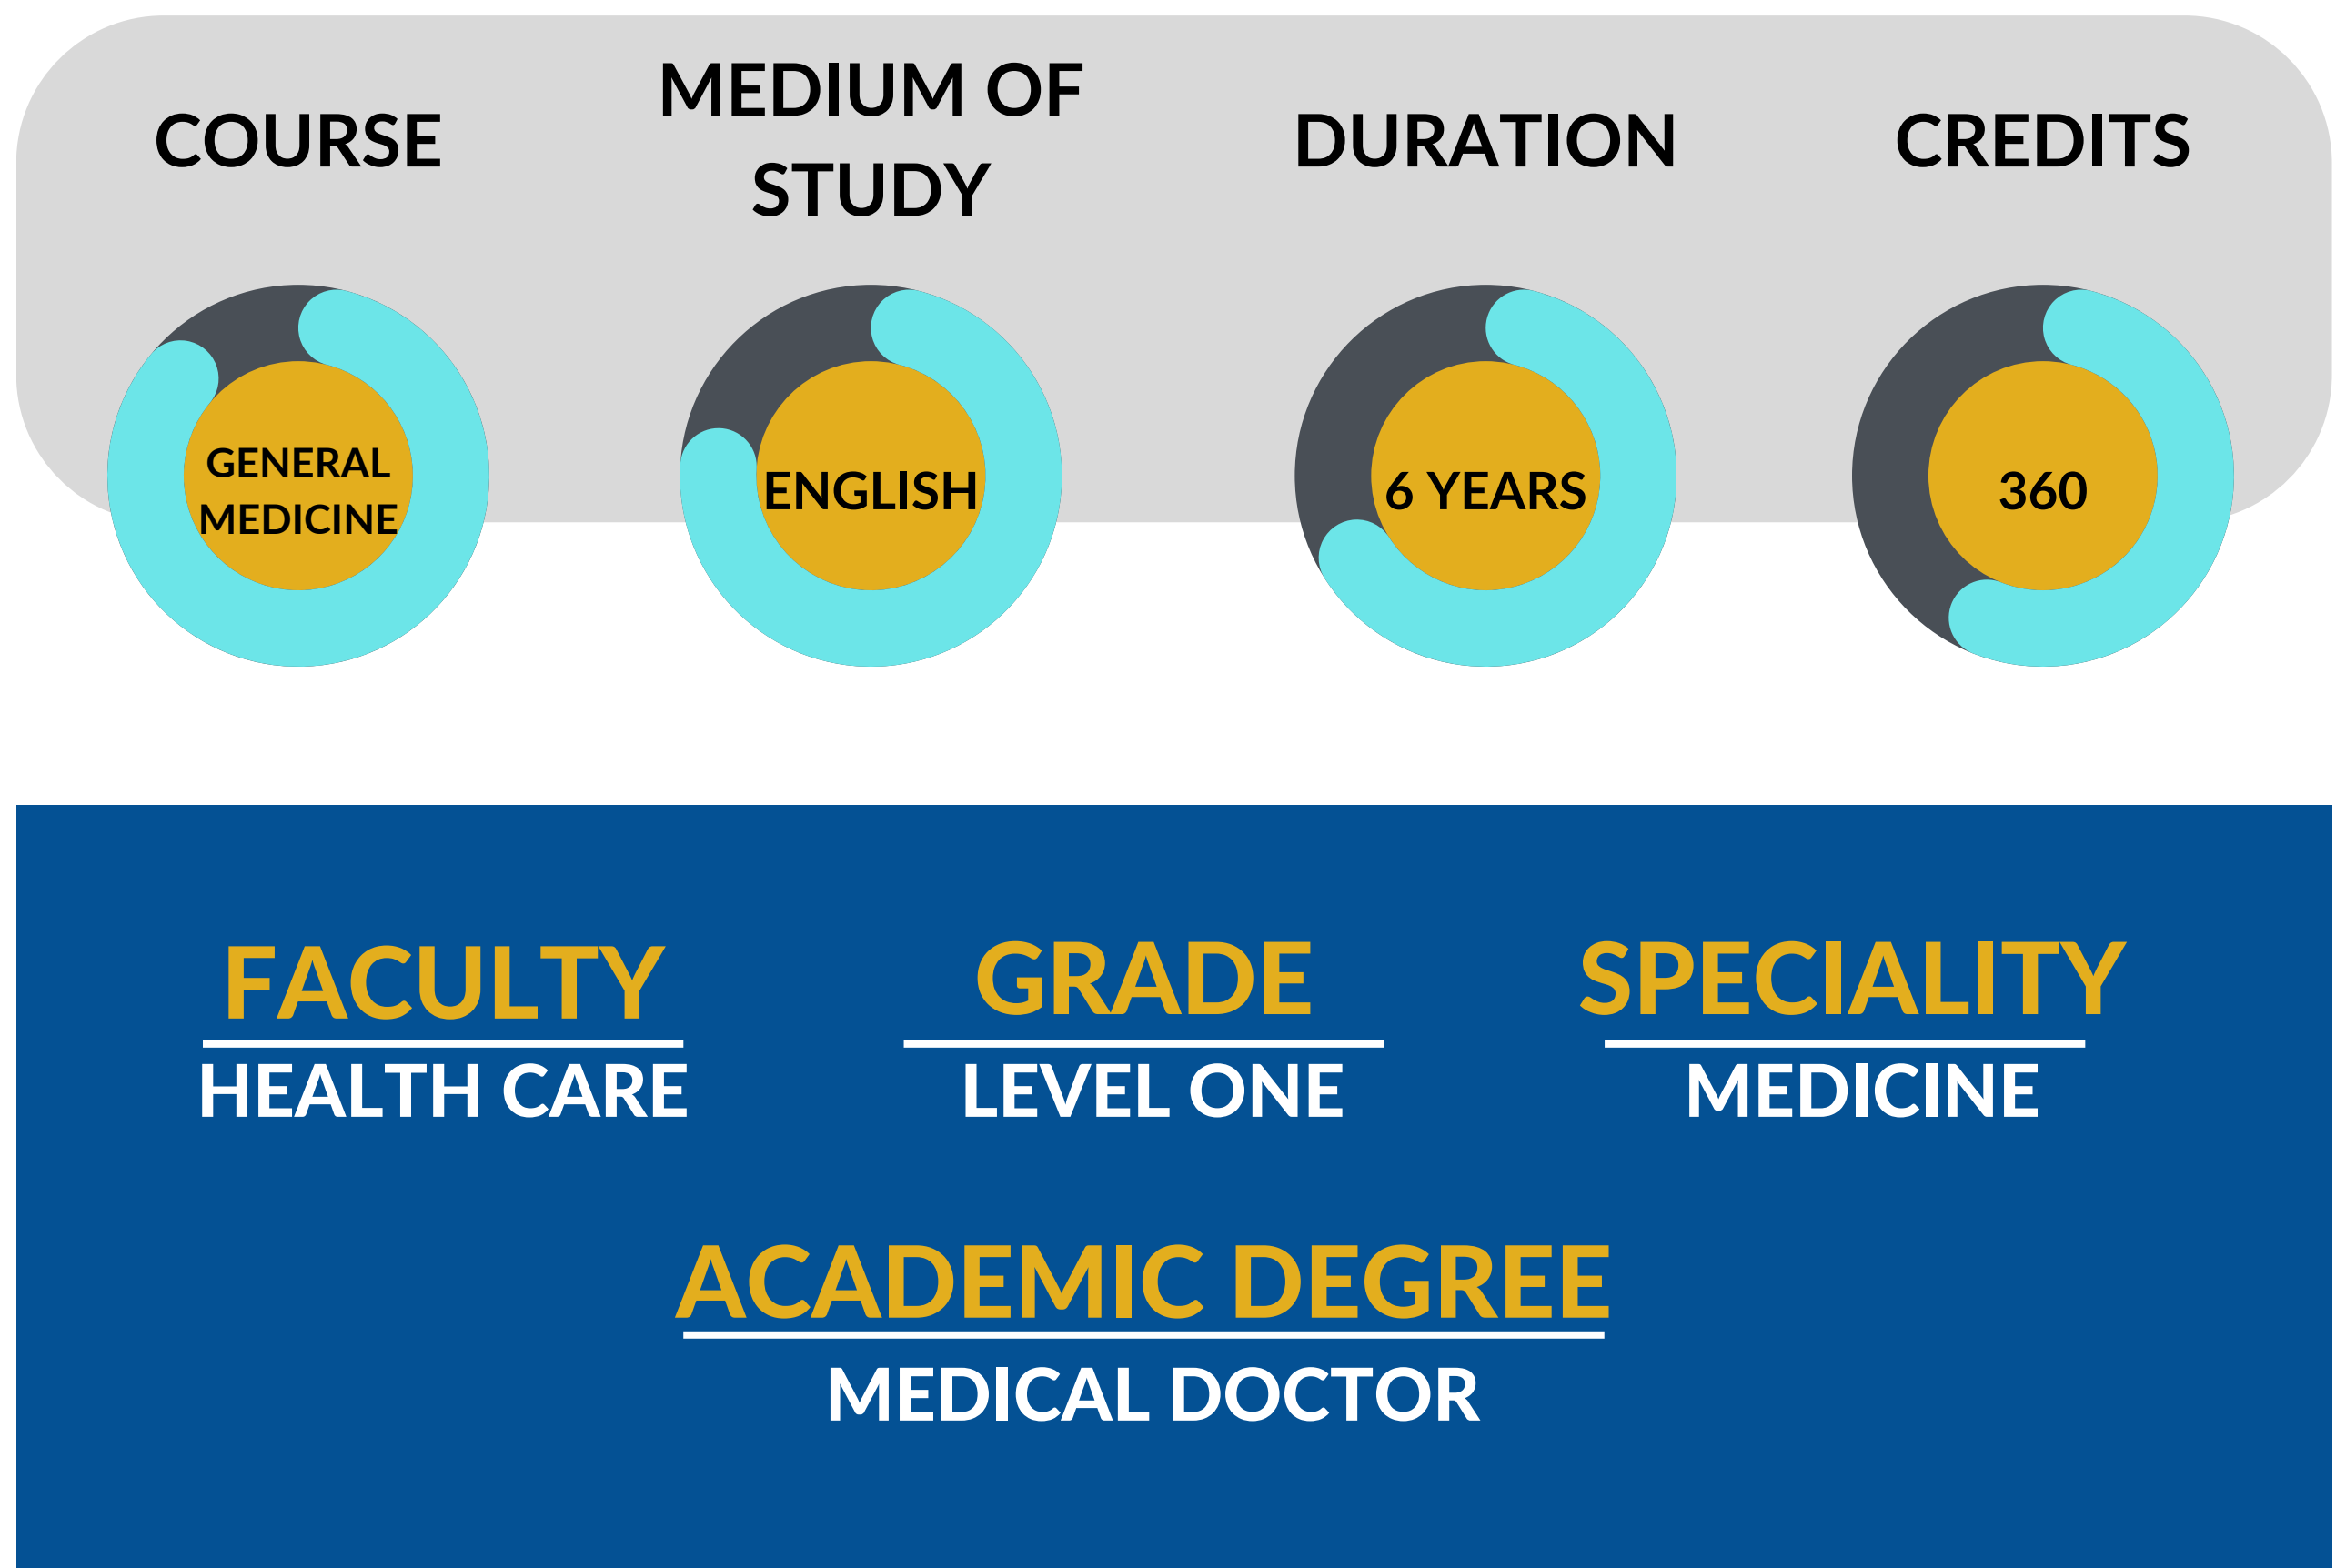

University faculty consists of famous scholars and medical practitioners who are involved in teaching, medical and scientific activities. BSMU possesses material and technical resources, training facilities, and a large library stock. BSMU is famous for its schools of surgeons, oncologists, cardiologists, morphologists all around Russian and world medical institutions.

Thanks to the international summits of SCO and BRICS, which were held in the capital of the Republic of Bashkortostan in 2015, Ufa became a new congress center of Russia. Today we are at the center of Russian and international medical events. Summits gave impetus to the development of cooperation with China, Kazakhstan, Kyrgyzstan, and strengthening cooperation with leading universities of Germany. Nowadays our students, physicians and professors are being integrated in international practice, our scientists are conducting joint research on topical problems of medicine.

We are glad to open our doors for new students from all over the world, and welcome opportunities for international cooperation in educational, scientific and innovative work.

medical council of India after screening test under
INDIAN MEDICAL COUNCIL
ACT, 1956.

राष्ट्रीय आयुर्विज्ञान आयोग

United Nation Educational, Scientific and Cultural Activity

As part of our goal to build information resources on medical education worldwide, FAIMER is developing a directory of international organization that recognize, authorize or certify medical schools and/or medical education programs. These organization are often responsible for the establishment of national standards for medical education and the recognition of medical schools in their countries.

International Opportunities in Medical Education

As medical student and faculty interest in cross-cultural education and global health increases, it is important to have better understanding of the variety and scope of available international education opportunities. FAIMER and the Association of American Medical College (AAMC) have joined together to collect information about the international activities of U.S. allopathic medical schools and to make that information available to the public.

WHO

BSMU is listed in World Health Organization and recognized globally as Russia only government Medical college in Ufa worldwide.

FAIMER

BSMU is Listed in FAIMER: Foundation for Advancement of International Medical Education and Research. The students studying at BSMU can avail the benefits of student exchange program of USA or transfer themselves to any US medical college after evaluating their current credentials at any authorized evaluator organization like world education services.
