## ALTUDOV YURI KAMBULATOVICH

Doctor of technical sciences,  
doctor of economics, professor

I welcome you to Kabardino - Balkarian  
State University named after H.M.  
Berbekov, which is in the top 100 among  
more than 700 universities in Russia.

For 90 years, our university has gone from a pedagogical institute to a multidisciplinary classical university, which has developed strong, well-known scientific and pedagogical schools in our country and abroad.

KBSU is a large university complex, which unites diversified, multilevel institutions that implement programs of higher, secondary, postgraduate and additional professional education.

Here at **KBSU**, we take pride in our rich heritage and our commitment to providing a transformative educational experience. From our humble beginnings as a pedagogical institute to our current status as a multidisciplinary powerhouse, we have cultivated a vibrant community of **scholars, learners, and leaders**.

With over **16,000 students** hailing from diverse backgrounds and cultures, our university is a melting pot of talent, creativity, and ambition. Whether you're embarking on your undergraduate journey, pursuing postgraduate studies, or seeking professional development opportunities, we offer a comprehensive range of programs to suit your needs and aspirations.

# ACADEMIC *program*

## KBSU TRIBHUVAN UNIVERSITY

During a visit to Tribhuvan University in Nepal, Professor Andzor Dikinov, representing KBSU, discussed academic cooperation focused on student exchanges, joint programs, and research collaborations, solidifying an agreement to enhance educational ties and facilitate language preparatory courses in Kathmandu. This initiative aligns with broader efforts to foster bilateral academic relations and showcase KBSU's educational infrastructure to Nepalese counterparts.

## GLOBAL CLIMATE CHANGING TECHNOLOGY WAS DEVELOPED IN KBSU

KBSU scientists have developed a device to monitor carbon dioxide dynamics in agricultural plants in real time, aiding the university's "Priority 2030" program for a green economy. This innovation accurately measures CO<sub>2</sub> flows, optimizing conditions for carbon fixation and plant growth, with implications for broader agricultural research and carbon sequestration studies.

## KBSU STUDENTS SUCCESSFULLY SPOKE AT THE ENGLISH-LANGUAGE SCIENTIFIC CONFERENCE

KBSU students presented reports on speech culture in business communication and information security at the II Annual Student Scientific Conference on "Foreign Languages in the Professional Area" in Moscow. Under Rita Kenetova's guidance, they highlighted the university's commitment to academic development and international engagement, showcasing valuable research in English.
